

WEBINAR RETAILER SERIES

Tablets, Powders, Softgels... what works best?

With new supplements popping up on store shelves every day, it can be confusing figuring out which product will work best for you. Join Dr. Mary in learning about the different types of delivery systems on the market and which delivery system offers optimal absorption and efficacy. We'll also be discussing our award-winning Superior Nutrient Absorption delivery system and how it can help you and your customers achieve optimal health.

LEARNING OBJECTIVES:

- Learn about the digestive process and how supplements are digested
- Understand the different types of delivery systems on the market
- Understand the unique features and benefits of our Superior Nutrient Absorption delivery system
- Learn how fat is used to enhance absorption

SPEAKER

Dr. Mary Nagai, MD PhD is the Director of Medical and Scientific Affairs at Platinum Naturals and holds an MD, PhD from the University of Toronto. A scientist at both the University Health Network - Toronto Rehab Institute and the U of T Temerty Faculty of Medicine with over 20 years of experience as a clinician-scientist and advocate for natural integrative medicine.
